ABOUT

I have a bachelor's degree in Food Science and Technology, currently enhancing my skills in UI/UX design through an IT Boot Camp organized by PEOPLElogy Group under the sponsorship of Yayasan Pahang. My transition into UI/UX is driven by a passion for creating seamless, user-friendly digital experiences. I bring a unique perspective that combines scientific rigor with creative design thinking. Eager to contribute to innovative projects, I aim to utilize my knowledge in a dynamic environment that values user-centered design and continuous improvement.

CAREER OBJECTIVE

I am actively seeking a UI/UX designer position to develop skills required in career advancement and learn from experienced professionals in supportive environment. As a recent graduate of Food Science and Technology currently attending an intensive UI/UX boot camp, I am eager to pivot my career towards the dynamic field of UI/UX design. I aim to leverage my strong analytical skills, attention to detail, and a passion for creating intuitive and user-centered digital experiences. By combining my scientific background with newly acquired design skills, I am committed to developing innovative solutions that enhance user satisfaction and engagement. I am seeking a challenging role in a forward-thinking organization where I can contribute to impactful projects and continue to grow as a UI/UX professional.
